

The Living Experiment

Figuring out life one educated guess at a time

Caged pussy (SRS +3) – potential nsfw pics

This is a repeat of day 3. Although I'm more awake. I'm wound up. I'm ready to get out of bed and walk minimally. I did worry I pulled a stitch on the bottom left (by the butt, likely the last one) yesterday, but doc today doesn't see any blood and say I didn't. Whatever. It hurts in certain circumstances.

Today I might try to play games with my partner, watch more game of thrones, it really anything to pass the boringness that is the last day confined to bed. I'll likely spend time learning and watching videos. Maybe work ones. Maybe educational ones. Maybe tv shows. Probably not funny ones (laughing makes my pussy hurt lol) and obviously definitely not sexy ones. No sexy thoughts remember. For 7.5 more weeks. Ugh.

As an aside, sexy thoughts have spontaneously happened. When they have I can feel swelling down there followed by pain. It's extremely easy to identify, sop makes out quick to try to think of non sexy tons. Like the stock market. Because money.

Speaking of, I should pay bills. Meh. I don't like adult life lol.

Here are two fun pics: me getting washed in bed, and the doc checking things out.
