

The Living Experiment

Figuring out life one educated guess at a time

Travel time! (SRS -5 days)

So I'm at the airport about half an hour from boarding the first flight. I woke up about 6 am pretty wide awake, went for a run, got ready, and am now at the airport with my one gf who is going with. And I feel damn good about it. Is it perfect? No. But I am excited and looking forward to this trip. It still hasn't hit yet that I'll be undergoing SRS in a few days. Also it's just another work trip in my mind as I travel so often.

So really it's just business as usual. It probably won't hit until I'm in Thailand, although maybe not even then. It might not hit until post SRS for a bit. Because at this point it'll likely just be a flurry of things for 2 weeks. Then the last week the gf is there I'll start to be more aware/awake. And the week after she leaves before I come back will likely begin to settle in. In any case, it'll be interesting.

Nothing from Suporn's clinic still though. Hope I got all this right in the logistics!
